#### **FOREWORD**

The Advanced Secondary Education Examination (ACSEE) 2015 candidates' items response analysis for General Studies was prepared so as to provide feedback to students, teachers, policy makers and other educational stakeholders on the candidates' performance in this subject.

The Advanced Certificate of Secondary Education Examination marks the end of two years of Advanced Secondary Education. It is a summative evaluation which, among other things, portrays the effectiveness of the educational system in general and the education delivery system in particular. Essentially, the candidates' responses to the examination questions is a strong indicator of what the education system was able or unable to offer to the students in their two years of Advanced Secondary Education.

The Examiners have analysed the candidates' responses for each question and identified the strengths and weaknesses demonstrated by candidates. The report shows the factors that account for the candidates' good and poor performance in General Studies by using the candidates' responses and extracts drawn from the scripts. The extracts provide tangible evidence of what the candidates wrote.

The Council expects that the feedback provided and the suggested recommendations in the conclusion of this report will enable various stakeholders responsible for education to take appropriate measures to enhance the performance of students in General Studies

Finally, the Council would like to thank the Examination officers, Subject examiners and all individuals who participated in the preparation and processing of the data used in this report.

Dr. Charles E. Msonde

EXECUTIVE SECRETARY

#### 1.0 INTRODUCTION

This report analyses the responses of candidates in General Studies for Advanced Level Certificate of Secondary Education Examination (ACSEE) in May 2015. The General Studies Examination covered the 2010 syllabus and adhered to the Examination Format.

This paper had 8 questions distributed in four sections namely: A, B, C and D. Candidates were required to answer five questions by choosing one question from each of the four sections and the remaining question from any section. All questions were restricted response essay type and each question carried 20 marks.

In 2015 the candidates who sat for General Studies Examination were 35, 175, out of which 30,596 (86.98 %) candidates passed while in 2014 a total of 35, 255 candidates sat for the General Studies Examination of which 32,590 (92.44%) passed. This indicates that in 2015 the performance of candidates declined by 5.46 percent.

The analysis on individual question is presented in the following sections by highlighting the requirements of each question and conducting an analysis of the strengths and weaknesses of candidates' responses. Extracts of candidates responses are inserted to illustrate some of the cases presented.

For convenience of analysis of each question the following grade ranges have been used. The candidates' scores ranging from 0 to 29 percent is considered as fail, 30 to 49 percent is average performance and 50 to 100 percent is good performance.

It is expected that this report will be useful to stakeholders particularly candidates, subject teachers, parents and educationists in general. It is also expected that the report will enable teachers to improve the teaching and learning of General Studies so as to minimize the students' misconceptions on some of the topics.

# 2.0 ANALYSIS OF THE CANDIDATES' PERFORMANCE PER QUESTION

This section analyses the performance of candidates in each question by indicating the number of candidates who attempted each question and elucidates the quality of responses for candidates who performed poorly and those who performed well or fairly well.

#### 2.1 SECTION A

#### 2.1.1 Question 1: Philosophy

The question required the candidates to describe six factors which contributed to the failure of socialism philosophy in Tanzania.

This question was attempted by 21, 991 candidates which is equal to 62.2 percent of all candidates of which 2.8 percent scored 0 mark, 63.90 percent scored from 0.5 to 5.5 marks, 30.10 percent scored from 6 to 9.5 marks and only 3.20 percent scored from 10 to 14.5 marks, which was the highest score in this question. The overall candidate's performance in this question was average.

The candidates whose scores ranged from 10 to 14.5 marks (3.20%) demonstrated good knowledge of the topic, presentation of correct response and writing of good introduction and conclusions using relatively good English and following the proper essay writing rules. In the introduction for example, they pointed out that socialism philosophy was adopted in Tanzania after the Arusha declaration by the first president J.K. Nyerere which aimed at collective ownership of the major means of production. In the main body, their arguments were coherently presented in showing the factors for failure of socialism philosophy in Tanzania. They said socialism failed because of such factors like; fall of the socialist bloc from where Tanzania depended for aid and moral support, lack of consciousness and awareness among citizens, financial problems caused by the economic crisis of the late 1980's, lack of enough and competent leaders in implementing the philosophy, corruption and embezzlement, opposition from the World Bank and the International Monetary Fund (IMF). However, the candidates could not score more than 14.5 marks because of repetitions of some points. Extract 1.1 illustrates such cases.

Extract 1.1

R	Socialism philosophy was adopted in
	Tanzania soon after Arusha decleration in
01	1967 declared by the first President and
	Chairman of CCM Honorable J.K Nyerene
	which aimed at collective ownership of the
	Major means of production. Socialism philosoph
	went logether with another centerts of
	adjustion and economic for self reliance.
	Before checking for the failure
	of Socialism philosophy in Tanzania the
	Before checking for the failure of Socialism philosophy in Tanzonia the following were the factor for the adoption of
	Such type of Philosophy. The need of uniform development in various areas across the
	development in various areas across the
	Country, to avoid over monopolization of
	resources and wealth by the private and rich
	people to promote rural development and obscur
	ve level gap between rural are and urban
	Centres, lestly personal ambitunis of Mwalinu
	Julias Nyerese under the influence USSR.
	The following were the reasons
	behird for the failure of Socialism philoso
	phy in Tanzanie.
	The decline of Soviet Union
	economically led to failure of socialism philos
	ophy in Tanzanie. Tanzanie was dependent on
	the aid both materially and novally from
	the USSR. Her economic decline led to
	the rise of Capitalist node under the
	hegemony of USA. Fall of socialism in
	Tanzania Lacked support hance adoption of
	free maket ccorony.

QI	Socialism philosophy failed due
	to Lack of Conciousness and awareness
04	among citizens. The system was new as
	most of them were from the cohonial legacy
	of Capitalism, Citizens did not understand
	the importance of Such of philosophy as
	They regarded it as dictactorship due to
	enforcing people from urban to collective
	forms is the villages.
	Sectation ship copy failed due
	to financial problems caused by economic
	active crisis in the sale of 17003 something
	was caused by long drought oil cross
	the war with Uganda and Collapse a
	East Africa Community, Socialism failed
	to be implemented due to lack of enough
	funds to improve industrial sectors infrastry.
_	thes and the other Considerable factors
	Another factor contributed to failure
	of Socialism is Lack of enough and compet-
	ent leader in monitoring and maintainence
	celt Socialism philosopher, Most of the hader
	were cornect extravagent and used the
	public funds secretly for private gains, This
	public funds secretly for private gains. This led to the decline of socialism as its find menagement and the expanditure were quite different to its eming hence its collapse.
	menagement and the expanditure were quite
	different to its ening hence its collapse.
	thouser tacker to the torium
	Socialism philosophy was the increase of external debt. Debt crois hit Tanzania
-	external debt. Debt crois hit Tanzania
	in 1980's forced the government to
	in 1980's forced the government to allow free market economy so as to allow
	,

91'	
	So as to incumber debts. Tanzanie borrowed
	a lot of find from external donors and due
	to its poor menagement and misuse of fund
	paved the way to the decline of economy hence
	descend a Socialism.
	Josialism philosophy failed due to
	Condition's estitled by Structure adjustment
	Locialism philosophy failed due to Conditions estitled by Structure adjustment Programme under world Bank and Other Capita-
	list manovours, Conditionalities set by SAP
	included its modelities such as privatization;
	adoption of multipartism foreign investment,
-	promotion of trade liberalization. All these
	were Supposed to be adopted by Tanzania So
	the supposed is the supplies by landania so
	as to acquire boars and graits,
	Socialism philosophy in Tanzonia failed due to Nyerere who failed to adopt
	tailed due to Nyerere who failed to adopt
	methods of scientific Socialism Kmarxism te-
	ory so as to creete a classes society-
	where by radicel leaders and changes could
	excen.
	Conclusialy: Most of African states
100	failed in maintainine of socialism philosophy due
12 2000	to capilatist manovous and excess critiques
	of dictatorial of planetarists which doesnot princte.
ş	development of the state.

In Extract 1.1, the candidate managed to point out the factors for the failure of socialism philosophy such as the decline of the Soviet Union, economic crises of the late 1980s, corruption and pressure from the donor community.

It was also noted that, the category of candidates with the scores ranging from 6 to 9.5 marks (30.10%) were able to identify the demands of the question and demonstrated knowledge of the subject matter. However, their

performance was affected by lack of exhaustive information in describing the points. Some candidates could not vividly describe some of the factors for the failure of socialism philosophy. In addition, some candidates failed to write a good introduction and conclusion.

Furthermore, the candidates with the scores ranging from 0.5 to 5.5 marks (63.90%) had their performance affected by limited knowledge of socialism philosophy, inability to express themselves coherently in English Language, mixing correct and incorrect points. They also suffered from the problem of repetitions. Besides, they failed to observe essay writing skills as some of their essays lacked an introduction and a conclusion, while others just outlined points in the main body. Finally, in the end their work would not merit higher marks in the sense that they provided few responses which lacked clarity and exhaustive elaborations.

On the other hand, the candidates who scored a 0 mark were few (2.8%) and their major shortcomings were failure to interpret the demands of the question and consequently, they supplied irrelevant responses. Some candidates, for example, discussed factors which contributed to the failure of socialism philosophy in Tanzania such as underdevelopment of people; poverty, rise of diseases, early independence of Tanzania, introduction of the monoparty system in Tanzania and introduction of the Arusha Declaration. Other candidates equated the socialism philosophy of Tanzania with agriculture. With this wrong interpretation, they embarked on a long list of factors which caused the fall of agriculture in Tanzania mentioning: lack of funds, poor marketing, poor science and technology, lack of co-operation and loss of plant nutrients, bad cultural beliefs such as widow inheritance, forced marriages, female genital mutilation and different ideology. Apart from being incorrect, their responses were accompanied by many grammatical errors and spelling mistakes. Extracts 1.2 illustrate such cases.

Extract 1.2, the candidate provided irrelevant points on the factors for the failure of socialism philosophy such as bad cultural factors, inheritance of widows, different ideology etc.

### 2.1.2 Question 2: Religion

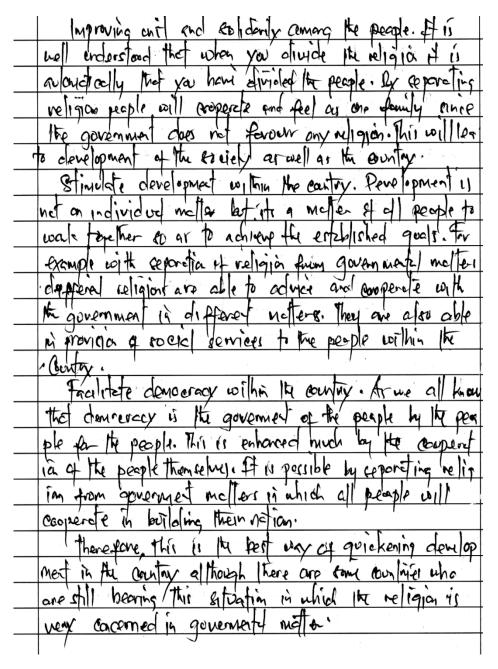

The question required the candidates to examine the importance of separating religion from state affairs.

The question was attempted by 30,089 candidates which is equal to 85 percent of all candidates, out of which only 0.3 percent scored 0 mark, 43.20 percent scored from 0.5 to 5.5 marks, 48.60 percent scored from 6 to 9.5 marks and 7.90 percent scored from 10 to 15.5 marks. The overall candidate's performance in this question was good.

The candidates who scored from 10 to 15.5 marks (7.90%) were able to show the importance of separating religion from state affairs. They provided a good introduction followed by relevant points for separating religion from state affairs such as: promoting peace and harmony, promoting freedom of worship, government being free to conduct its affairs without religious interference and promoting good relationship among people of different religions, helps in choosing competent leaders, promotes religious tolerance, improving unity and solidarity among people, stimulating development in the country and promoting democracy in the country. Above all, their language of expression was relatively good. Extract 2.1 is an illustration of the candidate's good response.

Extract 2.1, is a sample of a good essay from a script of a candidate managed to show the importance of separating religion from state affairs such as equal treatment of people, religious tolerance, stimulate development, promoting unity and solidarity etc.

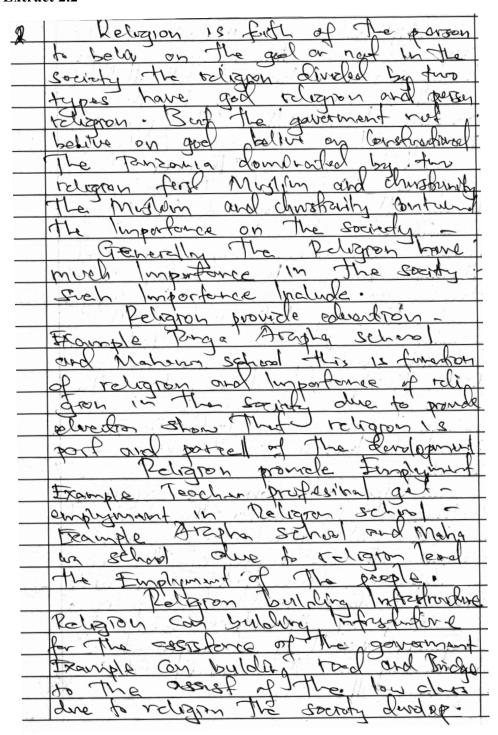

Furthermore, the quality of the candidates essays whose scores ranged from 6 to 9.5 marks (48.60%) were relatively good as they were able to identify the demands of the question, demonstrated knowledge of the

subject matter and were able to construct some relatively good English language sentences. However, their performances were affected by repetitions of points, mixing of both correct and incorrect points, providing irrelevant introduction and conclusion in some cases. Finally, they were unable to exhaustively examine the importance of separating religion from state affairs.

It was also noted that, the quality of response for candidates with 0.5 to 5.5 marks (43.20%) was not good enough and lacked focus on the demands of the question. Other candidates outlined some few relevant points but could not elaborate them while others suffered from the problem of repetitions and inability to express their points coherently in English language.

On the other hand, a few candidates who scored 0 mark (0.3%) lacked knowledge of the question demands, thus failed to point out relevant points regarding the importance of separating religion from state affairs. Thus they provided responses such as: to get different knowledge, spread of good behaviours. Other candidates misinterpreted the question to mean the benefits of secularism and religion to our society hence mentioning benefits such as: encouraging hard work, providing social services such as health care, providing employment, solving different conflicts and encouraging love, builds infrastructure like roads, good behaviour. Above all, inadequate English Language skills were a hindrance to the candidate's performance. Extract. 2.2 is a sample of a response from a script of a candidate who misinterpreted the question.

#### Extract 2.2

Extract 2.2, is part of a response from a script of a candidate who misinterpreted the question by focusing on the benefits of religion to people instead of showing the importance of secularism.

#### 2.2 SECTION B

#### 2.2.1 Question 3: International Affairs

The question required the candidates to analyze six fundamental principles of the East African Community.

The candidates who attempted the question were 30,283 (85.6%) and the performance was poor as 90 percent of the candidates scored from 0 to 5.5 marks, 7.60 percent scored from 6 to 9.5 marks and only 2.40 percent scored from 10 to 15.5 out of the 20 allotted marks.

The major reasons for the dismally poor performance of the candidates who scored a 0 mark (3.5%) was the inability to differentiate principles from objectives of the East African community as the result many candidates discussion revolved around the objectives of the Community such as to: create job opportunities, free movement of people, provided goods and services, develop infrastructure of the countries, raise production of goods, promotes political stability, common currency, to create a forum where the problems facing the member states can be solved. This indicated lack of the required knowledge. Other candidates misinterpreted the question to mean conditions for membership to the East African Community such as membership is only to countries of the Eastern part of Africa. They lacked even the knowledge of those conditions and of the correct date for the establishment of the community. Extract 3.1 is an illustration of a candidate who failed to address the demands of the question.

#### Extract 3.1

cal

Within the same category of the candidates who performed poorly, 86.50 percent of the candidates scored from 0.5 to 5.5 marks. The performance of this category was affected by lack of focus. Some of them had correct points accompanied by wrong elaborations. They also suffered from the problem of repetitions. Besides, their essays were too short coupled with inadequate English Language skills. Hence, could not merit higher marks.

Furthermore, the candidates who scored from 6 to 9.5 marks (7.60%) demonstrated satisfactory knowledge of the subject matter with reasonably good organizational skills such as a good introduction and conclusion, nevertheless their weaknesses was inadequate elaboration of points and repetitions of some points.

On the other hand, the candidates who scored from 10 to 15.5 marks (2.40%) responded well to the question with a good introduction and conclusion, they were able to point out the fundamental principles of the East African Community such as mutual trust among the member states; good neighborhood; good governance; mutual benefits or gains and peaceful settlement of disputes. Extract 3.2 is a sample of a response of a candidate who addressed the demands of the question.

# Extract 3.2

3	East African community is the commu.
	noty which was formerly established in
	1967 which was aimed at promoting the
	Free movement of people in Earl A Frican countries
	Such as Tanzamo, Uganda and Kenya, as well
	as to promote poace and Security not only
	but also aimed at promotiong economic
	cooperation as well as combating diseases,
	In 1977 Earl African community
	collapsed due to extensive nationalism of Thon
	carutuer different long of occurations ar
	well as corruption of the East African
	countries leaders. but in 2000 Now
	Sait African community was Established
	again induding all East African countries
	Juch as Tanzania, Kenya, Uganda Burendi
	and Rwanda with the same objectives like
_	the previous East of Frican community, but
	There were principles established,
	The following the following
	The following are the fundamental
	pirnaples of East Officer Community
	Mutual trust among the East African
-	people, one of the principle of East African
	among the East African people so as
_	to ensure easy cooperation in different
	-dovial - political and economic common
	aspects in bringing Successor of the goals
	OF Earl African community,
	Good neighbourhood and relationship,
-	also East African community proposed
	The presence of good neighbourhood in

	Those countries so as to ensure effective
	cooperation which cap lead to the development
1180	of both countries as a well as to provent
	Unneversary conflicts which can hinder the
	Implementation of the objectives of East
	A Frican community,
	Pracefully Settlement of disputes, also
	one of the fundamental principle enacted in
	governing East African community is softle-
	ment of disputes peacefully. In case
	There is occurance of misunderstanding among
	the East African community countries it
180	should be solved peacefully and not by
7	Usolena means
	Cooperation for mutual benefit, cooperate
	on among the member countries of the
	community must be present and should
	bring beneficial impacts to both countries.
	and cooperation should be in all aspects
	buch as social, political and economic
	aspects so as to ensure development.
	Good governance, also good govern-
	nance is one among the fundamental
	principles of East African community, This
	is important For giving good leaders
	From all momber countries who will be
	able to supervise the Objectives of the
	community as well as to maintain
	praw and Security is the country,
	Maintainance of peace and Socurity,
	also in all East African community momber
	Countries, There should be maintainance

Extract 3.2, the candidate was able to point out the principles of the East Africa community such as mutual trust, good neighborliness, peaceful settlement of disputes, good governance etc.

#### 2.2.2 Question4: International Affairs

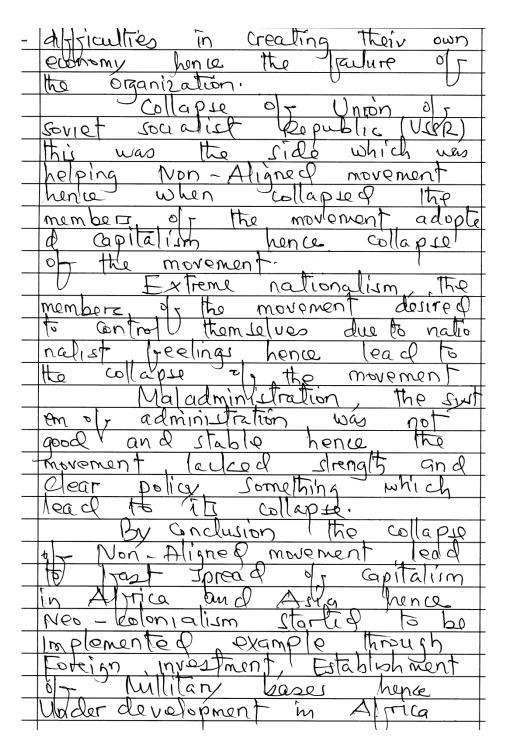

The question required the candidates to argue against the statement that after the collapse of the Eastern Bloc there is no need for the Non-Aligned Movement (NAM) to continue to exist.

This question was attempted by few candidates (9.7%) of all the candidates and their performance was poor as 13.5 percent scored 0 mark, 61.80 percent scored from 0.5 to 5.5 marks, 22.60 percent scored from 6 to 9.5 marks and only 2.10 percent scored from 10 to 14 marks out of the 20 allotted marks.

The candidates who scored 0 mark (13.5%) lacked sufficient knowledge of the subject matter and inability to identify and focus on the demands of the question as a result they gave irrelevant responses such as political instabilities, economic differences, currency differences, difference in ideology, natural calamities and extreme nationalism. However, some candidates responded contrary to the question by asserting that NAM is a dead organization and it died due to: inadequate capital, foreign interference, economic dependence, poor industrial base, collapse of Union of Soviet Socialist Republic (USSR) and extreme nationalism. Extract 4.1 is an illustration of a response of a candidate who misinterpreted the question.

# Extract 4.1

4	Non-Aligned movement regers to the
	Organization which was formed by
	Organization which was formed by African and Indi Asian nations in 1955
	during Bandung Conference in Indonesia
	the members were Altrice countries
	the members were Alprican countries such as Libra, Tanganvika new Tanzania

	Degunization.
	Economic depondence this organization deponded much on the developed nations like United States
	solion depended much on the
	developed nations like United State
	of America and Rusia hence the
	failure was inevitable
	poor Industrial base, the
	members were not invested much
	in industries hences they pied

Extract 4.1, the candidate misinterpreted the question by discussing reasons for the collapse of NAM such as the collapse of USSR, economic dependence, poor industrial base instead of the relevance of NAM today.

In the same vein, the candidates who scored from 0.5 to 5.5 marks (61.80%) provided a mixture of correct and incorrect responses which in most cases lacked elaborations, could not provide relevant introductions and conclusion and suffered from the problem of repetitions. In addition, inadequate English language proficiency limited them from scoring higher marks.

It was further noted that, the quality of the candidate's essays that scored from 6 to 9.5 marks (22.60%) was somehow good as they managed to observe essay writing skills by providing a relatively good introduction, main body and conclusion. Others were able to give relatively good elaborations in the main body. However, their performance was affected by failure to exhaustively explain their points, giving fewer points than the required six points and providing both correct and incorrect responses.

On the other hand, the candidates who scored from 10 to 14 marks (2.10%) were able to point out the relevance of NAM today. In the introduction, most of them were able to provide correct information on the historical background of NAM whereby they argued that Non aligned Movement was founded at the Bandung conference in Indonesia in 1955. The purpose of the organization was to ensure the national independence, sovereignty, territorial integrity and security of Non aligned countries. Afro- Asian states agreed to struggle against all forms of colonialism and neo colonialism and decided to play a neutral part against western and eastern blocs during the cold war. In the main body, the candidates were able to point out the importance for the continued existence of NAM which include the need for promotion of science and technology among member states, to promote and maintain economic cooperation among member states, reduce the disparity between the rich North and the poor South, to oppose all form of segregation, aggression and discrimination by powerful nations in various forms like colonialism, neo colonialism. However, the candidates could not score full marks because of failure to cite some relevant examples to substantiate their arguments. Some candidates could not provide all the required points and in some cases they lacked correct facts for their arguments. Extract 4.2 is an illustration of a response from a script of a candidate who provided a relatively good response for this question.

## Extract 4.2

А	
4.	Non-aligned Movement (NAM) was an asso-
	ciation of Independent Asian and African sta-
	ter joined in 1955 in Indonesia. NAM was
	josned as a result of Bandung conjugacence
	which was hold in Bandung in Indonesia.
	22 Asian countsies such as India, Buoma,
	Soi-lanka, Pakistan, Indonesia attended and
	7 countsies from Africa attended such as
	Egypt, Libya. It was under the sponsorship
	of Ahmed Sukasno. During this conjerence, the
	nations exerent decided to join the NAM on
	as to be used you the would camps of
	socialism and capitalism
	Although the eastern block has collapsed, the
	so is a need now the Non-Alligned Moveme-
	nt to continue to exist. The following are the

A sourons why NAM should continue to exist;
To provide a pour por discussion on
vasious matters bouch as tourousism quocti-
ng the would Through NAM. Asian and Aprica
a countsier would have an oppositurity to
have a rasum shows that would discuss
various issues relating to pareign policy
and international agains.
To assist in Julling out noo-colonialism.
Neo-colonialism is the indisect control of
independent Aprican and Asian states socially,
economically and politically by the western
nations. Through, Non-Alligned Movement. Asian
and Awican states for have a strong
stand against western powers hence rulling
out colonialism.
tochoology Through Non Aller and Manager (1904)
technology. Through Non-Alligned Movement (NAM)
Asian and Aprican states cand share
technologies sather than imposting at very
high paices from the developed nations like
Haited states of America, United Kingdom.  To create markets for goods produced
10 caedite Maskets is goods produced
in Member states Goods produced among the
member states would have a reacty market
in other member states. This would promote
trade activities among member countries thus
promoting the size of government revenue
to assist each other in solving shared
problems such as diseases, low touch of
science and technology as well as poor
Injurantouctuse. Through NAM, Member countries
U

4.	could mobilize resources to assist in solving
	various problems shared by the members.
	To help in maintainance a internal sour-
	reignity. Internal sourceignity is the ability of
	a country to determine on make its own
	decision without intogenerce. Through NAM,
	the member states or countries would be
	able to withstand external interperence from
	organs buch as European Union.
	It is consect to say, Non-Allignod
	Movement is advantageous since it & can
	assist in bringing about economic, social and
	political development It also has some advan
	disadvantages such as use of alot of
	le als trade to the contract of the contract o
	due to reduction of favilles and taxos.
	()

Extract 4.2 is a candidate's relatively good response. The candidate managed to point out the relevance of NAM such as transfer of technology, fighting against neo colonialism and promoting economic cooperation etc.

#### 2.3 SECTION C

#### 2.3.1 Question 5: Democratic Process and Practices

The question required the candidates to show six features which show that Tanzania upholds the rule of law.

This question was attempted by 13,462 candidates equal to 38.1 percent of all the candidates out of which 1.0 percent scored 0 mark, 72.10 percent scored from 0.5 to 5.5 marks, 25.10 percent scored from 6 to 9.5 and only 1.80 percent of the candidates scored from 10 to 14 marks out of the 20 allotted marks. The most noteworthy observation in this question is that the performance of the majority of the candidates was unsatisfactory as 73.10 percent of the candidates scored below 6 marks.

The candidates who scored 0 mark (1.00%) lacked knowledge of the concept of rule of law and its features. One candidate, for example, wrongly defined rule of law as the way in which a law is used and ruled and mentioned incorrectly that the law is used during elections, in parliament, and in the police department. Others gave a series of incorrect responses which appeared to be guesswork. Some candidates, for example, pointed out the existence of multiparty system, majority rule and minority rights, sovereignty of the people, provision of social services, parliamentary system and periodic elections as an indication of rule of law, still other candidates went astray by focusing on the roles and responsibilities of citizens instead of showing how Tanzania upholds the rule of law. Extract 5.1 illustrates these points in case.

#### Extracts 5.1

Rule of Law is a system where
there is equal rights among people.
If the rule of law is there, democracy
mil be there in a country. The following
are some features that show Tantania
upholds the rule of low.
firstly, democracy. Is the rule for
In Tontenia here is democracy. It is
shown by things as forexcuple people
having equal access to mass media.
secondly, union of Tangangika and Zanzibar
It shows unity, solidarity and cooperation
where people have equal rights towards
the aim of promoting development
Next, equal apportunities to mass media.
In Tanzania people are free in the
chances of decisions towards developmental

_5_	issues and strategies. This shows equal
	rights among people hance the rule
	of law is maintained sustem.
	Also, Existence of Multiperty. This helps to
	avoid dictatorship. Hence shows that
	the leaders and people have equal rights
	and democracy is implemented.
	Another paint is existence of secret ballots.
	This shows election is fair hence people
	choose their Leaders fairly. This shows
	the right to vote is maintained.
	Lastly, there is religious tolerance - People
	of certain religion are allowed to practice
	their religion without being interfered
	with others. This shows people have equal
_	rights in worshiping hence the rule of
	Law is maintained.
	conclusion, the above are some of
	the sioc featres which show that
	Tanzania upholds the rule of law.

In extract 5.1, the candidate misinterpreted the question by pointing out the union of Tanganyika and Zanzibar, free mass media, existence of multiparty system, secret ballot box etc. instead of the features which show that Tanzania uphold the rule of law.

A good number of candidates (72.10%). performed dismally poorly with their scores ranging from 0.5 to 5. 5 marks The major weaknesses of the candidates were lack of focus on the demands of the question. Other candidates did not observe the essay writing format by listing down points without elaboration. Inadequate English Language competency was also noted in the candidate's responses.

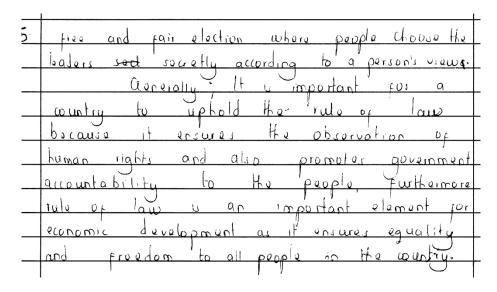

On the other hand, the quality of the essays in the category of the candidates with the scores ranging from 6 to 9.5 marks (25.10%) was satisfactory because they were able to analyze some features which show that Tanzania upholds the rule of law. The features pointed out include "the war against corruption by the presence of PCCB in the country, presence of national constitution and separation of powers.

A few candidates scored from 10 to 14 marks (1.80%). One of the strength in their essays was the ability to analyze the features which show that Tanzania upholds rule of law. Such candidates were able to define rule of law as an aspect of democracy that means no one is above the law and people are equal before the law. In the main body, they pointed out that Tanzania observes rule of law as citizens are not allowed to take the law in their own hands, supposed to observe human rights, participate in reporting crimes, punished equally and fairly before the law and fight against corruption and war against bad cultural practices such as female genital mutilation. Extract 5.2 illustrates this case in point.

# Extract 5.2

all people are egual before the law utereby all people are egual before the law lanzania is among the wountries that uphold the rule of law as it is a democratic state and for a country to be a democratic state and it must uphold the rule of law so that no body could be above the law and all people are led egually before the law and that egual treatment of attiers by the government. 	own hands by killing suspects of theft instead they should report to the police for
	further investigation this shows that the
	wuntry upholds the rule of law:
	War against bad cultural practices. The
	war of Tanzania against bad cultural
	practices shows that the country upholds
	the rule of law example the government
	has started wars against female genital
	Multilation (Fam) early and foced marriages
	and other bad cultival practices mostly
	which undermine women in Tanzania.
	thus this shows that the country upholds
	rule of law whore all people are equal before the law.
	The presence of separation of power. In
	Tanzania power is not vosted to the president
	only power is separated to different
	Deople example there are some objectives such
	as law making which are done by the
	podiament and even the president himself
	rules according to the constitution, thus
	this shows that the wuntry upholds.
	the rule of law.
	The presence of general election. The
	practice of general election shows that
	the wantry upholds the rule of law
	whereby during the general election every
	atizen is allowed to choose a loader
	whom he or she consider to be
	the best example in landama the general
	election is carried out after every
	five years and this is usually

Extract 5.5 is a sample of a relatively good response from a script of a candidate who managed to analyze features which show that Tanzania upholds rule of law. The candidate pointed out observation of human rights, separation of powers, war against bad cultural practice and corruption.

#### 2.3.2 Question 6: Democratic Process and Practices

The question required the candidates to explain obstacles for democratization process in Africa.

The question was attempted by 26,594, out of which only 0.2 percent scored 0 mark, 30.20 percent scored from 0.5 to 5.5 marks, 55.20 percent scored from 6 to 9.5 marks and 14.40 percent scored from 10 to 16 marks out of the 20 allotted marks. The noteworthy observation in this question is that the majority of the candidates (69.60%) had a good performance.

The candidates who scored from 10 to 16 marks (14.40%) were able to focus on the demands of the question and demonstrated a good mastery of the subject matter as they pointed out the obstacles to democratization process in Africa which include corruption, foreign interference, lack of funds, absences of free and fair elections, unequal access to the mass media, political instability, ignorance of the people's rights in the society, poverty of political parties, authoritarian regimes, tribalism and lack of democracy within the political parties. Another probable reason for the good performance of some candidates is the fact that the wave of democracy which is spreading in many parts of Africa is being reported in

the international media and the local media. Civil societies and the local political parties are also in the forefront to air their grievances they encounter in promoting democracy. That being the case, the candidates were in a better position to access information on obstacles to democratization in Africa from diverse sources. Extract 6.1 is a sample of a candidate's good response.

## Extract 6.1

G	Democracy, according to Abraham Lincoln is
<u>C</u>	dolings as appearmen as the popular for the socials and
	defined as governmen of the people for the people and by the people. Thus meaning that the government is the
	on butter mand and it works bor the bandit a His I
	popula and the anycompany will be made in but the
	people: Domocratization process in Alice is proposed but
	hindered by many textory solvier do not an hand in
	son by the people and it works bor the benefit of the people and the government well be made up by the people and the government will be made up by the people Democralization process in Africa is present but windered by many factors which do not go hand in hand with democracy. That is some areas lack free and
	tair olothion lock accordance on results and in come area than
	fair election, lack acceptance of results and in some aicas that e is no rule of law. The following are the obstables for -
	dimografization process in Africa.
	Excistance of corruption, corruption is the ille
	and minuse of public apposition through any public as
	gal mísuse of public proporties for ones own public ga
	ders the domocratization process in Africa as a result leads to the emergence unaccountable leaders who - any think of the more was instead of thinking of
	leads to the omeraging unaccountable leader who
	only think on the movelyes instead on thinking on
	the people
	Interprence of the western Nations, this hindres
	Ittle democratization process in Africa Di one of the
	principle of domocracy is presence of the and bair
	election but during the periods on elections the west
	principle of democracy is presence of the and fair election but during the periods of elections the western nations and toward the observer to cheeve if
	the elections of conducted are conducted properly
	Itais no Ireanos in Itais.
	ries tinds to be an obstacle in democratization pro
	ries tends to be an obstacle in domacratization pro
	cess especially in countries such as Domocratic repub
	cess especially in countries such as bomocratic republic of tongo where there are internal man these would limit the participation of the people in democratic ac
	limit the participation of the people in democratic oc
	trities and also limit the perferning of free and fair
_	elictions

Illiteracy among most Africans, this also limits the democratization process in office as the illiteracy of most Africans causes them not to jully participate in elect ions and chamberacy. And let it be known that approximately 30% of Apricans do not go for voting of leaders and one of the factors causing this is illiteracy hence this acts as an obstacle in the domocrafization process in Africa. Coup de lat occurance, this is the forcefull oval of the excisting government by arms due to disatis raction. This also limits or acts as an obstacle in the democratization process in Africa as the new governm lent that gots into powers is not one that is obtained by choice of the people (domocratically) hence this bec omes a problem. This is in the case of Egypt after the overthrow on Hosny Mubarals Dictatorship or conservatism of some leaders, that is some baders stay in power for a very long period of time without stopping aside for other new leader tocome in and take place this highly acts as an obst acle for domocratization process in Africa. As of the case of Uganda where Yoweri Mussevini has been in powerfor more than 15 years and in 2 imbabus where Robert Mugabe has been in power for more than objugars. Tribalism aciding in some African countries, this arrows the reporter tribe to get more leader This affect democraftration process as a person is aludial because of his tribas status repultation and not boraiss of his cap ability and ability to volve the existing problems of the society. This has been experienced in kenya the kikuyy boing the dominating tribe. Generally domocratic process un affica still has a long way to go to attain trig praspertly

domocracy has arrived late in Africa and is mostly surcesson in content and nature and does not mostly the vature of Africa but if Africa is able to end interstate (inflints and corruption then surply democratization—process will be attained prosperity

Extract 6.1, the candidate managed to point out the obstacles to democratization in Africa such as corruption, external interference, civil wars, tribalism etc.

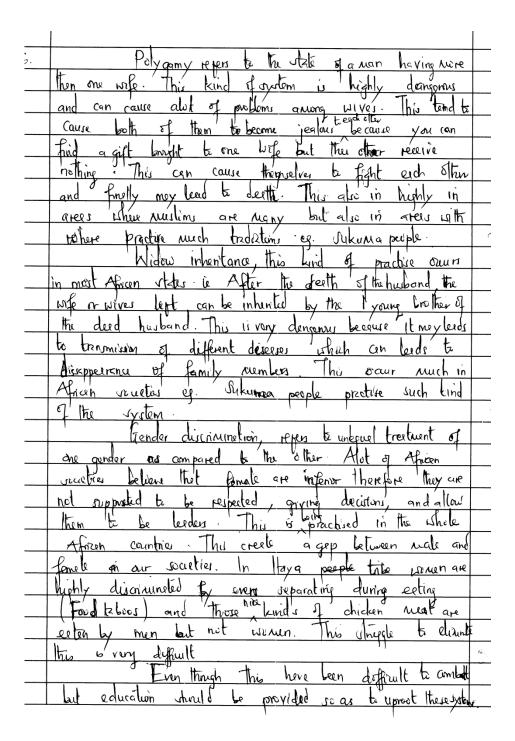

The candidates who scored 6 to 9.5 marks (55.20%) were able to identify the requirements of the question, had knowledge of the subject matter and were able to construct some relatively good English Language sentences. Never theless, their performance was affected by repetitions of some points and failure to delineate all points required.

Furthermore, the candidates who scored from 0.5 to 5.5 marks (30.20%) suffered from a number of weaknesses such as repetitions of points and inability to exhaustively explain the obstacles for the democratization process in Africa. They mixed correct and incorrect points and had serious problems in defining concepts in the introductory part of the question which was democratic process. Some of the candidates were able to define democracy and not democratization process. For example; some candidate just defined democracy as *the power of the people by the people for the people.* 

A few candidates who scored 0 mark (0.2%) lacked knowledge, misinterpreted the question and had poor English Language proficiency. One candidate defined democratization as the state of uprooting all forms of segregation, discrimination, dehumanization and oppression. Another candidate defined democracy as the system of democratic way which led to the democratic process. In the main body, the candidate pointed out female genital mutilation, forced marriages, early marriages, polygamy, widow inheritance and gender discrimination" as obstacles to democratization. This response show that the candidate lacked knowledge of the subject matter. Extract 6.2 is a sample of a response of a candidate who lacked knowledge of the subject matter.

## Extract 6.2

Democratization process in a long process in which many
Democratization process in a long process in which many states in Africa fail to archieve. This repens to state of ording all porms of segregation, discrimination, dehumanization and opposession
1 pms of regregation, discrimination, dehumanization and apprecion
among people in the reciety!
The following are vix obtacles por democratization in Approx

named at early agos raas their parent should
Obtain money and other properties

Extract 6.2, the candidate lacked knowledge of the question demands hence, as a guesswork, he /she listed down a series of wrong responses such as female genital mutilation, early marriage, forced marriage, polygamy etc.

## 2.4 SECTION D

## 2.4.1 Question 7: Science and Technology in Development.

The question required the candidates to justify the statement that the increase of productivity of the agricultural sector in Tanzania entails effective utilization of science and technology.

The question was attempted by 21,816 equal to 61.7 of which only 0.7 percent scored 0 mark, 32.20 percent scored from 0.5 to 5.5 marks, 53.60 percent scored from 6 to 9.5 marks and 13.50 percent scored from 10 to 15.5 marks

One discernible observation in this question was good performance by the majority of candidates (67.10%) whereby candidates who scored 10 to 15.5 (13.50%) were able to identify the demands of the question, demonstrated mastery of the subject matter to a large extent and their English was relatively good. In the main body, they pointed out the contribution of science and technology in promoting agricultural productivity in Tanzania as provision of insecticides, provision of better seeds, provision of storage facilities, and use of machines like tractors, harvesters, facilitating irrigation systems in drought areas and stimulating development of the infrastructure. Extract 7.1 is a good illustration of these points in case.

# Extract 7.1

Leaping of animals. The agricultural voctor in Tanzania is under the supervision of the Ministry of Agriculture. This Ministry is responsible in supervising both the large male and small scale agriculture. Science refers to the scientific discoveries resulted from an experiment and technology refers to the practical application of the wientific findings in doing things.  The following are the play of science and technology in increasing of productivity of the agriculture soctor in Tanzania.  Introduction of inorganic fartilizers which mains ins the soil fertility. Extract 7.1 is a sample essay from a script of a candidate who was able to demonstrate how science and technology has increased productivity in the agricultural sector in Tanzania.

The category of candidates whose scores ranged from 6 to 9.5 marks were able to identify the demands of the question and demonstrated knowledge of the topic by pointing out relevant points such as the use of tractors, the use of fertilizers, the use of improved seeds, consulting

agriculturists, and through irrigation systems. However, their performance was affected by repetitions of some points.

Furthermore, the candidates who scored 0.5 to 5.5 marks failed to give satisfactory response as they lacked clarity of points and sufficient knowledge of the subject matter. They were unable to justify clearly how productivity of the agricultural sector in Tanzania entails effective utilization of science and technology. Some of the candidates pointed out presence of fertile land, availability of labour and government support, while other candidates in introductory part of the essays failed to define the term science and technology and wrongly defined agriculture as an activity which is a back bone of Tanzania.

On the other hand, a few candidates (0.7%) scored 0 mark due to failure to address the demands of the question, poor mastery of the subject matter and inadequate English Language skills. Some candidates, for example, misinterpreted the question to mean problems facing agriculture in Tanzania such as lack of education to agriculturists; lack of government support, lack of education on climatic conditions and on soil science. Other candidates deviated completely from the question demands and embarked on ways of improving science and technology, mentioning: establishment of technical schools, supporting local crafts, motivating our local industries and discouraging use of external products. Some candidates discussed the importance of science and technology such as to simplify work and increase knowledge. Meanwhile, some candidates discussed different ways of improving agriculture in Tanzania. Such candidates lacked knowledge of the question demands. Extracts 7.2 illustrate these cases in point.

## Extracts 7.2

to Valence and technology in the process of

is bor vaience and technology that we are
proud of but it brings disasters like moral
eroxion, and up on.

Extract 7.2, the candidate misinterpreted the question by discussing the advantages of science and technology in Tanzania such as promotes international trade, increases government revenue, reduces expenditure etc.

## 2.4.2 Question 8: Contemporary/Crosscutting Issues-Drug Abuse

The question required the candidates to examine the impacts of drug abuse in developing countries like Tanzania.

The question was very popular with 34,018 candidates equal to 96.2 percent attempting it, of which 58.80 percent scored from 6 to 9.5, 30.40 percent scored from 10 to 18 marks and only 10.80 percent scored from 0 to 5.5 marks. This indicates that the performance of candidates in this question was good.

The candidates who scored from 10 to 18 marks out of the 20 allotted marks (30.40%) were able to identify the demands of the question and demonstrated mastery of the subject matter; arguments were coherently presented with good introduction in which they were able to define drug abuse. In the conclusion, they suggested what should be done to solve the problem. Furthermore, they explained the impacts of drug abuse as; increase crime rate, family separation, mental disorders, and increase in the transmission of sexually transmitted diseases, drop out from school and retarding national development. Other contributory factors for the candidates good performance in this question is the fact that being a cross cutting issue drug abuse and drug trafficking have attracted the attention not only of the government of Tanzania but also the international community at large. Concerted efforts are being done to address the malady and to create awareness of the problem through different ways such as the mass media, non government organizations and other international organizations. That being the case, the candidates could easily access information on the topic from various sources and hence good performance in this question. Extract 8.1 is a sample of a response of a candidate who was able to address the demands of the question.

# Extract 8.1

Ÿ.	Drug abuse is The illegal use on drugs
0	in prescribed by modical experts. Any use on
	longs without prescription can be considered as
-	ing abuse. Drug abuse is a burning issue
	n developing comtnes like Tanzania. The smain
	cause of drug abose have beign ractor like
	inemployment and peer inchence. Dry abuse
1	have had a number of impact on developing
- 10	ountries, These include.
-	Decline of labour power. Most people who
	tend to take drugs happen to youth who should
1	se the backborn of the countries development.
- 1	Jugs are users are incapable of taking part

Extract 8.4 presents a candidate's relatively good response. The candidate was able to point out correct impacts of drug abuse in developing countries like Tanzania such as increase in crime rate, decline of labour productivity, moral erosion, death and spread of sexually transmitted diseases.

Furthermore, the candidates who scored from 6 to 9.5 marks (58.80%) demonstrated knowledge of the subject matter and were able to construct some relatively good English Language sentences and able to examine the impacts of drug abuse in the developing countries like Tanzania such as Increase of crimes, separation of families, deaths, unplanned pregnancies and mental disorder etc. However, they could not score higher marks because of repetitions of some points. For example, the candidates discussed about moral erosion in one paragraph in the next paragraph discussed about increased crime rate the two points are the same therefore they are treated as one point. Inadequate elaborations and failure to exhaust all the required points also accounted for their average performance.

On the other hand, a few candidates (10.8%) scored from 0 to 5.5 and the reasons for this unsatisfactory performance were misinterpretation of the question and inadequate knowledge of the subject matter. Some candidates wrongly defined drug abuse as the situation whereby the country to the hunger in the society. Another candidate defined drug abuse as the medicine which has very problem in the country like Tanzania. On the impacts of drug abuse, they pointed out increased political instability, increase corruption, lack of unemployment. Some essays were too short to merit higher marks in the sense that they delineated few points which lacked clarity and exhaustive elaborations, as they mixed correct and incorrect points coupled with poor English Language skills. Extract 8.2 illustrates this case in point.

Extract 8.2, the candidate misinterpreted the question by pointing irrelevant points such as corruption, donor countries conditions, lack of capital and lack of employment being the impact of drug abuse.

## 3.0 ANALYSIS OF ITEMS PER TOPIC

The analysis of the candidates' performance in each topic examined indicates that the topics which were well done by candidates are, Drug Abuse which ranked first with 89.20 percent of the candidates scoring an average of 30 percent or above, followed by Science and Technology in Development (67.10%) and Religion (56.50%). The topics with average performance were Democratic Process and Practice (48.25%) and Philosophy (33.30%). On the other hand, the topic which was poorly performed by the candidates is International Affairs with only 17.35 percent of the candidates scoring an average of 30 percent or above. See the appendix.

It is evident from the analysis that in ACSEE 2014 the topic on International Affairs was performed well by many candidates whereby 54.90 percent of candidates scored an average of 30 percent and above, where as the ACSEE 2015 candidate's performance was dismally poor in the same topic. The reasons for the decline of candidates' performance in the topic of International Affairs in the ACSEE 2015 are poor mastery of the subject matter coupled with the inability of the candidates to identify the demands of the questions.

#### 4.0 CONCLUSION AND RECOMMENDATIONS

## 4.1 Conclusion

The overall performance of candidates in General Studies is good as many candidates were able to address the demands of the questions, showed mastery of the subject matter and most of them demonstrated organizational skills of essays. However, concerted efforts are needed to improve the teaching and learning of the topic on International Affairs. Further observation in this report indicates that some candidates had poor organizational skills of the essays coupled with inadequate English language skills. It is expected that the feedback given in this report will enable stakeholders to take appropriate initiative to improve the future performance of the candidates in national examinations particularly the General studies examination.

## 4.2 Recommendations

In order to improve the performance of prospective candidates in General Studies, it is therefore recommended that:

- (a) Teachers should exhaustively teach all topics in the syllabus and ensure that candidates understand the content properly.
- (b) Teachers should teach students to understand/identify the task required in a given question.
- (c) There should be frequent Inter-school General Studies clubs and debates with the idea of promoting students' knowledge of issues; such as crosscutting issues, national and international issues.
- (d) Candidates should read the examination questions carefully in order to be in a position to identify the requirement(s) of the question(s).

# A SUMMARY OF ANALYSIS OF CANDIDATES' PERFORMANCE IN EACH TOPIC FOR THE ACSEE 2014 AND 2015

		ACSEE 2014			ACSEE 2015		
S/ N	ТОРІС	NUMBER OF QUESTION S	THE PERCENTAG E OF CANDIDATE S WHO SCORED AN AVERAGE OF 30% OR ABOVE	REMARK S	NUMBER OF QUESTION S	THE PERCENTA GE OF CANDIDAT ES WHO SCORED AN AVERAGE OF 30% OR ABOVE	REMARKS
1	Contemporary /crosscutting issues- Drug abuse.	1	93.10	Good	1	89.20	Good
2	Science and Technology in Development	1	93.40	Good	1	67.10	Good
3	Religion.				1	56.50	Good
4	Democratic Process and Practice	2	65.25	Good	2	48.25	Average
